

Exploring Creation with Biology 3rd Edition 2020 - 2021

Most modules will be covered in two weeks. There are a few that will take three weeks. Because Module 1 is an overview, it is covered in one week and we can spend more time on modules that present new material.

For each module, you will be responsible for the Study Guide questions found at the end of each module. Online Study Guides are posted at www.greenroofcoop.com under the Student tab, under Science, in Biology. Submit these assignments online. The online forms are the same as the Study Guide found in the textbook. If you do not have access to the online forms, you may turn in written or typed answers to the Study Guide. The written/typed answers must be the entire sentence/paragraph as they are found in the text. Do not write the answers only. Writing or typing the complete sentence is a good form of studying.

Module 1: Biology, The Science of Life

Due September 10th:

- Reading Assignment: read Module 1, pages 1-36.

Lab:

- Read Experiment 1.1 (Introduction to the Microscope) on pages 28-32. We will

In class you will receive the closed book test for Module 1.

All Module 1 work is due the next class meeting, September 17:

Experiment 1.1 Introduction to the Microscope

Google Form Study Guide Module 1 (this may be submitted earlier and I will try to provide feedback so you can use it to study for the test)

Module 1 test

If you have any questions about the assignment, please feel free to contact me. Call or text 214-755-4993, or email mrsthorne.catn@gmail.com
